Lee is a **Transport** Planner with **experience of project managing** on major **infrastructure** projects

With over nine years of experience in transport, development planning and engineering, Lee specialises in advising on all transport and highways aspects of planning for new developments.

This includes the preparation of Transport Assessments/Statements, Travel Plans, traffic analysis, junction modelling, project management and liaising and negotiating with local authorities. Lee has experience of project managing on large infrastructure projects.

Having joined IcenI in early 2017, Lee has already worked on a number of large residential and commercial developments. Lee previously worked for Parsons Brinckerhoff before moving to Amey.
